TEACHING EXPERIENCE

Courses as lead instructor at Skidmore College:

Research Methods & Statistics II: Clinical Psychology (two semesters)

Acceptance and Commitment Therapy (four semesters)

Cognitive-Behavioral Therapy (four semesters)

Introduction to Psychological Science (two semesters)

Psychological Disorders (five semesters)

Positive Psychology (one semester)

Colloquium in Psychological Science (one semester)

Prior to Starting at Skidmore College

Co-teaching weekly **cognitive-behavioral therapy course for psychiatry medical residents** at Dartmouth-Hitchcock Medical Center.

12 third-year medical residents (PGY3 M.D.s), August, 2019 to June, 2020.

Mentored, trained, and led own independent team of undergraduate research assistants for five studies as primary investigator, as well as two other separate teams of undergraduate research assistants (RAs) working for Newman Laboratory studies.

9 undergraduate RAs on my own study teams, 14 general Newman Laboratory RAs, October, 2013 to July, 2020 (including summers).

Wrote, acted, filmed, and edited **Cognitive-Behavioral Therapy for Anxiety Disorders coach**

20 undergraduate students, Fall 2018

Independently developed and taught **Personality Psychology** (primary instructor, in-residence) without the use of previously inherited materials.

100 undergraduate students in Spring, 2018

Independently developed and taught **Abnormal Psychology** (primary instructor, in-residence) without the use of previously inherited materials.

140 undergraduate students in Fall, 2018

Designed and led educational/training activities and guided discussions for Penn State Anxiety Clinic bi-weekly meetings (primary instructor, serving as student administrator).

Approximately 15 regular attenders, June 2017 – June 2019

Taught laboratory section of Research Methods (lab instructor, in-residence) with significant re-creation of Powerpoints, lab worksheets, and class activities.

22 undergraduate students in Spring, 2016

Was personally selected to **help develop a graduate statistics course, create weekly assignments, and assist with teaching** for **Graduate Multilevel Modeling Statistics**.

25 graduate students, Fall, 2015

Taught **dialogue-based Intergroup Relations: Race and Gender course independently**

for 11 undergraduate students

for 11 undergraduate students

Anxiety Disorders Special Interest Group Member, 2014-Present

Anxiety and Depression Association of America

2016 – Present

Phi Beta Kappa Society

2012 – Present

- August, 2018 – June, 2019 Student Clinical Supervisor for Cognitive Behavioral Therapy Team
 Supervisor: Michelle G. Newman, Ph.D.
 Co-supervised CBT didactics, treatment delivery training, and cases for five graduate students alongside Dr. Newman.
- January, 2018 - Present Staff Therapist: Trauma and Anxiety Specialty
 Supervisor: Sandra Testa-Michelson, Ph.D.
 Provided CBT for PTSD (primarily prolonged exposure with supplemental cognitive processing therapy), led group therapy for social anxiety disorder (and personally developed/created session-by-session guidelines for the PSU clinic), and supervised graduate students treating trauma and anxiety cases.
- Summer 2017 – Present Anxiety Clinic Student Administrator
 Senior Administrators: Sandra Testa-Michelson, Ph.D. and Kristen Smith-Simon, Ph.D.
 I developed didactic materials, discussion guides, and activities for bi-weekly anxiety clinic meetings, then led the meetings.
 Co-developed research protocols for data collection and aided student therapists in following clinic research procedures.
- 2017 - 2018 Staff Therapist
 Supervisor: Michael Wolff, Ph.D., Clinic Director
 Provided various integrated psychotherapies emphasizing CBT and dialectical behavior therapy, treating a diverse caseload of severe comorbid diagnoses (outside clinical assistantship).
- 2016 - 2017 Consultant for Psychological Consulting Services
 Supervisor: Michael Wolff, Ph.D., Clinic Director
 Provided consultation, functional behavior analysis, and intervention plans for living facilities caring for those with intellectual disability, disruptive behavior, and comorbid psychopathology.
- 2016 - 2017 Clinical Assistantship (Staff Therapist)
 Supervisor: Michael Wolff, Ph.D., Clinic Director

Provided various integrated psychotherapies with a CBT emphasis for a diverse caseload of high severity, comorbid diagnoses, including various personality disorders, schizophrenia/schizoaffective disorder, other psychosis, bipolar disorder, major depression, and anxiety disorders.

2016 - 2017

Neuropsychological Assessment Team

Supervisor: Peter Arnett, Ph.D.

Learned and administered neuropsychological evaluations, provided feedback, and offered recommendations to clients with diverse concerns, including problems with memory, attention, learning disabilities, and psychopathology
